

The Footopia Experience

Experience intensive fast footwork skills training and the ultimate soccer experience for players of all ages and skill level, taught by a dynamic team of youth soccer education experts. As pioneers in youth soccer, Footopia has become noted in the Bay State for developing players with footwork flair.

Footopia has become one of the sought after training organizations for our ability to effectively teach fast footwork skills. We are constantly striving to develop players' ability and attitude to beat opponents with moves and feints.

Learning Through Playing

Our coaching philosophy is "Learning Through Playing," because we believe that greater learning takes place through playing. Skills cannot solely be performed in a vacuum but must ultimately be tested under game pressures. Throughout the week players are put in soccer related environments, such as small-sided games, to develop their individual skills and moves to beat opponents.

Co-Directors

Behind Every Great Player There's A Great Coach. There's no denying this fact. With Amphone Keovongmansar and Gerry Padilla at the helms players can truly blossom. Amphone, with his USSF "B" and US Youth National Youth License, is the assistant coach at division one Long Island University. He has been involved with all levels of youth soccer from town, to travel, to premier, and ODP. Gerry runs a successful premier club, FC United of Mass. Both bring a wealth of coaching experience as teachers to soccer players who are eager to improve their game.
